   To protect your computer from being infected or damaged by malware, please don't reply those mails and don't click the links in the mail. If you have replied, please change your password immediately.

2. The only URL of NCYU Webmail System is: https://mail.ncyu.edu.tw. The phishing website is located in USA: http://www.mcskcpa.com/administrator/templates/khepri/css/mail.ncyu.edu.tw.htm. (Don't try to click it, please.)

3. NCYU Computer Center never asks the user provide the account and password. Please contact with NCYU Computer Center if you receive the e-mails which ask you provide your account, password, or personal information.

4. We also suggest that, if you receive e-mails from other organizations which ask you provide your password or private information , it is better to check the matter via telephone.

Sincerely,

Information Network Division of NCYU Computer Center
